Oakland, CA 94612

Subject: **IT Consultant IV** (Application Licensing and Lifecycle Management) (Job Number: 1428610)

Dear Hiring Manager,

Thank you for reaching out regarding the IT Consultant IV (Application Licensing and Lifecycle Management) opportunity. I am excited to submit my application.

My background includes business systems analysis, product management, software asset management, and enterprise governance across healthcare, financial services, and SaaS environments. During my previous engagement with Kaiser Permanente, I supported Software Asset Management (SAM), IT Asset Management (ITAM), software licensing, governance, and reporting initiatives. Most recently at ServiceNow, I partnered with cross-functional teams to deliver enterprise platform capabilities, drive process improvements, and leverage AI-enabled solutions to improve operational efficiency.

I would welcome the opportunity to discuss how my experience and previous familiarity with Kaiser Permanente can contribute to your team. Thank you for your time and consideration.

Sincerely,

Cyrus Shahriari
