BUSINESS AND DATA ANALYST * PROCESS OPTIMIZATION

Hands-on systems professional with extensive experience optimizing, troubleshooting, and managing complex infrastructure and platform operations. Proficient in Linux environments, hardware integrations, and leveraging advanced generative AI tools to streamline workflows and scale scripting efficiency. Proven track record of collaborating closely with engineering teams to support high-performance enterprise infrastructure. Ready to provide dedicated, onsite technical support, data center racking/cabling assistance, and script-driven automation.

CORE COMPETENCIES

Hardware-software troubleshooting, cross-functional liaison, root cause analysis, asset/inventory management tracking.

Operating Systems & Platforms: Linux (Ubuntu/Debian), Windows, ServiceNow, Jira, Confluence.

Scripting & Infrastructure: Bash, PowerShell, hardware component integration, mobile/infrastructure deployments.

AI & Automation Tools: Google Gemini, Claude Enterprise, Microsoft Copilot, Agentic AI (ServiceNow).

PROFESSIONAL EXPERIENCE

SERVICENOW, Santa Clara, CA

January 2025 - May 2026

Cloud-based software platform that automates digital business workflows and powers enterprise operations.

Product Manager / Senior Business Analyst

- Applied advanced AI tooling across problem-framing and operational workflows, driving a 30% improvement in efficiency. Served as the primary technical communication lead for core platform issues, performing deep root cause analysis on failures. Acted as a cross-functional liaison between engineering scrum teams and stakeholders to maintain infrastructure stability.

CYPRESS HCM AT SERVICENOW, Santa Clara, CA

May 2023 - January 2025

Cloud-based software platform that automates digital business workflows and powers enterprise operations.

Business Systems Analyst

- Owned application management across 20+ global locations, directly managing technical hardware integrations and multi-region deployment coordination. Troubleshooted and resolved open technical incidents and service requests, successfully reducing backlogs by 40% within three months.

FIRST REPUBLIC BANK, San Francisco, CA

May 2020 - May 2023

Commercial bank and wealth management firm catering to high-net-worth individuals.

Sr. IT Infrastructure Change Analyst

- Evaluated over 1,200 monthly infrastructure change records, identifying system risks and ensuring operational compliance. Investigated failed technical infrastructure changes, performing comprehensive root cause analysis to deliver remediation strategies.

EDUCATION

Management, Information Systems, Menlo College, Atherton, CA

ITIL v3 Certified - APM Group Foundation | Microsoft Certified Technology Specialist (MCTS)

FEMA CERT Train-the-Trainer / Program Manager | Bilingual: English (Native) | German (Fluent)
