## SYSTEMS INTEGRITY ANALYST • CHANGE GOVERNANCE • RISK MITIGATION • PROCESS OPTIMIZATION

Results-driven Systems Governance and Risk Professional with over 20 years of experience designing, architecting, and enforcing rigorous control frameworks across heavily regulated, complex technical environments. Proven expertise translating highly technical system requirements into actionable operational rules, standard operating procedures (SOPs), and decision-trees. Expert at managing master change management protocols, moving operations from "trust" to "verify" via systemic checks and immutable audit trails. Exceptional track record leading cross-functional alignment across product, engineering, and compliance stakeholders.

### CORE COMPETENCIES

**Systems Integrity & Governance:** Control Framework Design, Risk-to-Check Mapping, Policy Enforcement.

**Change Control Authority:** CAB Facilitation, Master Protocol Enforcement, Release Management.

**Operational Rigor:** Technical Documentation, SOP Authoring, Decision-Tree Logic, Gap & Impact Analysis.

**Audit & Compliance Trails:** Immutable Logging, System Validation, QA Frameworks, Compliance Posture.

**Cross-Functional Collaboration:** Product & Engineering Liaison, Stakeholder Facilitation, Global Program Management.

**Technical Systems & AI Execution:** Agentic AI Tooling, Workflow Automation, Environment Validation.

### TECHNICAL & COMPLIANCE TOOLKIT

**Frameworks & Governance:** Integrated Risk Management (IRM), Policy & Compliance, Audit Management, ITIL Change/Incident/Problem Management.

**Systems & Platforms:** ServiceNow (IRM, Change, Incident), Jira, Confluence, Matrix42, HP Service Manager.

**AI Tools & Infrastructure:** Google Gemini, Claude Enterprise, Microsoft Copilot, Bash, PowerShell, Linux, Windows.

**Languages:** Fluent in English and German.

## PROFESSIONAL EXPERIENCE

**SERVICENOW**, Santa Clara, CA

**January 2025 - May 2026**

Cloud-based software platform that automates digital business workflows and powers enterprise operations.

### Product Manager / Senior Business Analyst

- *Integrated Risk Management (IRM) Portfolio:* Audit Management, Regulatory Change Management, Policy & Compliance, Risk Management.
- Applied AI tooling across the full BA lifecycle—problem framing, process decomposition, story mapping, and acceptance criteria generation—as internal ‘Customer Zero,’ achieving a 30% improvement in operational efficiency for a multi-million dollar product portfolio.
- Serve as primary stakeholder communication lead for platform issues, conducting root cause analysis and delivering clear, non-technical resolution narratives to executive and cross-functional audiences.
- Author and maintain business requirements, functional specs, user stories, and acceptance criteria in JIRA/Confluence; lead sprint ceremonies and drive backlog prioritization aligned to business needs across multiple scrum teams.
- Lead ongoing reviews of business processes for the IRM platform, documenting as-is/to-be states, identifying optimization opportunities, and developing improvement strategies adopted across stakeholder groups.
- Facilitate client and stakeholder workshops to capture unspoken requirements, validate business processes, and ensure delivered solutions meet both functional and non-functional business needs.

**CYPRESS HCM AT SERVICENOW**, Santa Clara, CA

**May 2023 - January 2025**

Cloud-based software platform that automates digital business workflows and powers enterprise operations.

### Business Systems Analyst

- Owned the Visitor Management application across 20+ global locations, including mobile version upgrades, hardware integration, and multi-region deployment coordination.
- Managed the inaugural deployment of the Occupational Health & Safety application module, establishing baseline processes and governance standards.
- Reduced open incidents and service requests by 40% within a three-month period through systematic backlog prioritization and proactive stakeholder engagement.

**FIRST REPUBLIC BANK**, San Francisco, CA

**May 2020 - May 2023**

Commercial bank and wealth management firm catering to high-net-worth individuals.

**Sr. IT Infrastructure Change Analyst**

- Assessed 1,200+ monthly change records, applying ITIL change management principles to reduce emergency/expedited changes by 50%, significantly lowering organizational risk.
- Increased standard (pre-approved) changes by 15% through automation initiatives and targeted training programs for change submitters.
- Chaired bi-weekly Change Advisory Board (CAB) meetings, facilitating cross-functional risk discussions and approvals across infrastructure, applications, and security teams.
- Investigated failed changes and post-implementation incidents, delivering root cause analysis reports and remediation training to reduce repeat failures.

**LUMENTUM**, San Jose, CA

**January 2020 - July 2020**

Leading provider of optical, photonic, and commercial laser products

**ITIL Process Manager**

Lumentum is a leading provider of optical, photonic, and commercial laser products

- Led ITIL process development and oversight focusing on Incident, Change, Configuration and Problem Management. Organize bi-weekly Change Advisory Board (CAB) meetings covering three regions.
- Designed and implemented the Configuration Management Database (CMDB) on ServiceNow CSDM Model. Assisted with the migration from Jira Service Desk to ServiceNow in the first quarter of 2020.

**ABBVIE**, Sunnyvale, CA

**August 2018 - December 2019**

Global biopharmaceutical company discovering and delivering innovative medicines.

**ServiceNow Business Analyst**

- Delivered end-to-end business analysis for a global pharmaceutical organization, eliciting and documenting requirements for enterprise platform implementations in a compliance-driven environment.
- Mapped As-Is/To-Be HR process flows and authored functional requirements to support a validated Workday-to-ServiceNow integration, serving as liaison between HR stakeholders and technical implementation teams.

**KAISER PERMANENTE**, Pleasanton, CA

**November 2017 - August 2018**

One of the largest not-for-profit health plans in the U.S., operating on an integrated care model.

**Business Systems Analyst**

- Supported ITAM/SAM process analysis at one of the largest not-for-profit health plans in the U.S., documenting requirements and gap analysis for enterprise asset management implementation.
- Designed and implemented server licensing provisioning processes, tracking utilization data and presenting compliance reporting to management and audit stakeholders.

**DIMENSION DATA**, Santa Clara, CA

**April 2016 - November 2017**

**ITSM Data / Business Analyst**

**COOPER TECHNOLOGIES**, Santa Cruz, CA

**June 2015 - March 2016**

**IT Service Consultant**

**HEALTH SHARED SERVICES BC**, Vancouver, Canada

**January 2013 - June 2014**

**Sr. Coordinator / Business Analyst**, January 2013 - June 2014

**EDUCATION**

**Management, Information Systems**, Menlo College, Atherton, CA

ITIL v3 Certified - APM Group Foundation | Microsoft Certified Technology Specialist (MCTS)  
FEMA CERT Train-the-Trainer / Program Manager | Bilingual: English (Native) | German (Fluent)
